Helioseal[®]
F Plus

Fissure sealant

Fast and comfortable fissure sealing for children

Helioseal F Plus is an efficient light-curing, white composite resin fissure sealant with fluoride-releasing properties. The product forms a tight seal and effectively protects the tooth from cariogenic germs.

-
- ✓ Helioseal F Plus is flowable, and it is easy to spread on complex contours such as pits and fissures – even in the upper jaw.
 - ✓ Used in conjunction with a suitable polymerization light, such as Bluephase PowerCure from Ivoclar, Helioseal F Plus can be cured in only ten seconds.
 - ✓ The convenient slender syringe dispenses the correct amount of sealant exactly where it is needed.
 - ✓ The fine cannula enables you to place the product swiftly and exactly without overfilling the fissures.
 - ✓ The fine fillers contained in the product ensure a smooth surface seal.

Our solution for when you have to seal the teeth of children quickly, effectively and comfortably

Isolate

Comfortable relative isolation with OptraGate Junior.

Cleaning

Efficient and gentle cleaning with Proxyl fluoride-free.

Sealing

Efficient, fast and comfortable fissure sealing with Helioseal F Plus.

Fluoridation

Superior protection against dental caries and erosion with Fluor Protector S^[1-4].

Protection

Fluoridation and germ control in children who wear orthodontic appliances with Cervitec F.
